

Doomsday

Matilda Mann

I stole us a car
It's battered and bruised, but at least it can move
It won't take us very far
At least all we need is to get there by three
Have you found something to wear?
It should be something new, something borrowed and blue
But it's, it's gotta be soon
It's me and it's you

Before the world is doomed
I hope I get to live a life next to you
Before we're all to blame
I hope I get to feel a little less insane
And when time is up
It's you I wish I never should have given up
Before the world is doomed
I hope I get to say that it was always you

I found us some rings
Unfortunately, though, they're just sweets that I kept from
Last Halloween
Get out of these sweats and I'll grab my mom's dress
And we'll run through the streets
Let's go out with a bang, I'm your number one fan
'Cause you, you make me complete
We'll kiss as we weep

Before the world is doomed
I hope I get to live a life next to you
Before we're all to blame
I hope I get to feel a little less insane
And when time is up
It's you I wish I never should have given up
Before the world is doomed
I hope I get to say that it was always you

Doo, doo, doo, doo
Doo, doo, doo, doo, doo, doo
Doo, doo, doo, doo
Doo, doo, doo, doo, doo, doo
Doo, doo, doo, doo
Doo, doo, doo, doo, doo, doo
Doo, doo, doo, doo
Doo, doo, doo, doo, doo, doo
Before the world is doomed
I hope I get to say that it was always you
