

# Make It Home

Matilda Mann

I don't wanna open letters  
I don't wanna pick up calls  
I don't wanna walk the dog again  
You know I hate the cold

I don't wanna go  
To see the lights that  
Shine on every street  
If you're not here with me

I don't wanna wake up early  
When there's snow and rain outside  
Everybody's cheerful  
But you're not by my side

What's the point in mistletoe  
When no one's there to kiss?  
That's not what Christmas is

Darling, tell me  
You'll come get me  
Say you'll make it home  
'Cause Christmas isn't Christmas alone

I don't wanna wait forever  
For you to get to me  
'Cause everybody's strange here  
But I guess that's family

And though the fire's burning  
It's my favourite time of year  
You're still not here

Darling, tell me  
You'll come get me  
Say you'll make it home  
'Cause Christmas isn't Christmas alone

Darling, tell me  
You'll come get me  
Say you'll make it home  
'Cause Christmas isn't Christmas alone
