

## Bsp: Blue Sky Playground

Matisyahu

...Sup brotha?

We was just kids then big love, big dreams and a vision of the future...

Hidden gems, Yankee hat flat brims  
Shroom stems, Red Rocks, Stonehenge  
Adjust your lens, can't trust it  
Bust it, good luck kid, fist in your mouth like a Muppet  
No strings attached, puppets play the role  
But I stroll relaxed, in control, all facts  
Screw a fib, old dip ain't new to this  
I diss a bitch ass with crass remarks  
Then get hitched, to show I'm married to these chips, doggy its hilarious  
Foggy out in frisco, I'm a bay boy with Dub roots  
I speak truth and get gruesome on loops  
Tie up your boots, and pull your sleeves up  
We putting in work, murk your favorite then smirk  
Gip you pricks like smurfs, I go beserk jerk  
The quirky kiddo, lanky height, crop brillo, I'm nice  
Stop your sleeping, get your dome up off the pillow, think twice  
Before you test the professor in charge, laying in the cut  
With my dog Matisyah, what up!

Re-up and re vision  
We up yeah we living  
Sizzling fire gone blaze for the children  
Places we live in  
Circles we give in  
Willing, making these songs ya'll feeling  
Healing, the only way come with wisdom

Re-up and re vision  
We up yeah we living  
Sizzling fire gone blaze for the children  
Places we live in  
Circles we give in  
Willing, making these songs ya'll feeling  
Healing, that's the way come with wisdom

Ip, keep rocking it  
Like the way we talking shit  
Laid back walk  
New York we keep working it  
NYG from the NYC  
6'3 long and lean  
Sea breeze from Cali  
Back east from Berkley  
Walk halls all day  
In the mid nineties  
Like the first time we blazed  
The beat I got coming bro  
Got you all day  
You know I'm straight up from the WP

Feeling saturated  
Relate as I gaze  
Re-instate  
Old ways

Make plays  
High ways  
No more sideline days make waves  
Stay blazed  
The trance is so rave  
Behave? I can't stay

Now we running away  
Running away to the sounds  
Take a vacay from this town  
Quick trip down memory lane for a while  
Feeling the day and the way  
Clouds are placed  
I wish this day would last for ever  
In the playground skies is blue  
Thinking of the very first time  
Very first time I met you  
Cipher set  
And the blunts was lit  
I'm hearing melody  
And drums that kick  
While ya spit  
I got this  
We was just kids then  
Big love big dreams had a vision of the future you and me  
As the music guided me  
Close my eyes and feel your staring at me  
Close my eyes and feel your staring at me  
Follow the beat and the words that you say  
Colors and all the landscapes  
Swirl and change  
Make take  
With me  
Cruising through town  
I'll carry your weight  
And always like fallen angels misplaced

Close my eyes and feel your staring at me  
(Staring at me)  
Into the light  
Follow the, follow the, follow the wind  
The eternal way that you sing  
Going away...
