

Champion

Matisyahu

When you're feeling down, can't go any further
Tossed to the ground, been kicked to the curb yah
Come against a foe and his eyes scream murder
How can I bounce back when I feel so hurt, yeah
Raise your cup to the sky
Spread your wings out wide
Champion nananananan
Champion, tonight

We will fight with our heart
And all that we know
We will fight 'til the love it grows
If the mountains should crumble and kiss the sky
I'ma stand by what I know
We could be champions
Do it together
Here for you
Are you here for me
We could be legends
Do it together
Shining forever eternally

To live your live, make a sacrifice
Trust your guts 'cause you know what's right
Compassion and love, the stars shine bright
The songs will play as the fire light
At the dawn of day open up my eyes
King of all time won't you hear my cry

We will fight with our heart
And all that we know
We will fight 'til the love it grows
If the mountains should crumble and kiss the sky
I'ma stand by what I know
We could be champions
Do it together
Here for you
Are you here for me
We could be legends
Do it together
Shining forever eternally

You're a champion
You gotta be a champion tonight
You're a champion
You gotta be a champion tonight

In this world of deception, make a resurrection
Muster up the strength to make a connection
Keep on going, keep on surviving
Thanks and praise to the one who enlivens
Rain down upon the creation
People of all of the nation
Enlighten yes your persuasion
And all of the amazement
I like to dream big to daydrift
Journey to the moon and back to the spaceship

All alone makin' beats in the basement
Victory so close I can taste it
Raise your cup to the sky
Spread your wings out wide
Champion nananananan
Champion tonight

We will fight with our heart
