

# Confidence

Matisyahu

3 shots upon the sky  
3 bluebirds flying high  
3 sons remind me why  
I ended up in crown heights

Confidence, you know you want it all  
Believe in yourself  
Even after the fall  
I wish I knew that one  
A long long time

Now when I walk in the street  
Got that hop in my step  
Chest out, head back  
Yeah you know what I rep  
I strut like a rasta  
Though I'm being chased by death  
I'll be gone 'til whenever  
Like the song by Wyclef

Listening to music  
Always gave me vision  
See me on the street  
I'll be walkin' to the rhythm  
Focus in my face  
That's the way I'm straight livin'  
Champion heart  
From the start to the beginning  
I've been lookin' for the palace  
A crown and a throne  
Click clack around Krakow  
Typing on my phone  
Tackling my demons  
But you know that by now  
Hasidic reggae superstar  
Tell you all how  
Got it on the inside  
Don't need to wear it out  
Can't say I'm not religious  
I just let go of the doubt  
And right about now

I like old things  
Things that go slow  
Antiques and such  
So you know what I know  
I'm an old soul  
That's the way I like to go  
I'm thankful for the bumps, yeah  
I like to feel the road  
How can I defend against snakes and scorpions  
Tryin' to be your friends  
But then they cut you in the end  
I feel sleep movin'  
Collapse and give up then I start again  
How can I pretend

Confidence, you know you want it all  
Believe in yourself  
Even after the fall  
I wish I knew that one  
A long long time

Confidence, you know you want it all  
Believe in yourself  
Even after the fall  
I wish I knew that one  
A long long time tell you all how

Got it on the inside  
Don't need to wear it out  
Can't say I'm not religious  
I just let go of the doubt  
And right about now  
I'ma let go of this trout  
Whispering my pleas, I ain't gotta be loud  
Throw it in the sea, throw it back to the sea  
Underneath the clouds  
Yea you know what I mean  
This is my silent scream  
Doin' as I please  
I bless you with the ease  
Why these dudes judgin' me

Take a piece a herb and break it up, roll it up, take a draw to the head top  
.   
Head nice, head nice, me a wine with de gyal dem a bounce to the one drop.  
Everything nice, ting nice, everybody a vibes and me nuh waan hear no gun shot.  
Pure vibes, good vibes, a weh some foolishness some people dem a come chat.  
Some people a rate you, some people dem a hate you.  
Some people a go through life and nah care bout nobody else you likkle bait you.  
Me have de confidence fi keep strong, have de confidence fi hold on,  
Bun out pestilence in all residence, read old testament from how long.  
It's not an easy road but we have fi live it.  
Anything in life, put in all of your heart and mind and your soul,  
Remember the greatest gift is love.

Confidence, you know you want it all  
How can I walk tall?  
With the critic in my head  
Won't let me rest 'til I'm small  
How can I walk tall?  
Confidence, critic in my head  
Believe in yourself  
With this critic in my head now  
Won't rest 'til I feel small
