

# Crosswinds

Matisyahu

Fill the room up with smoke  
Turn the lights down low  
Start with one toke  
Only natural light  
When I tackle my foes  
When I got M in sight  
Crosswind in a crossfire of times

Crossfire of times

Yes, I changed my mind  
Why is it hard to find  
The kindness in your heart?  
A place to empathize  
I emphasize my life  
Has not been all sunshine  
I took a few joy rides  
And found myself alive

I went to the other side  
Enclothed in laws not crime  
Stayed there for some time  
And I say this all the time  
There's no law to change ya mind  
Emphasize your mind  
It's your mind

Stay cool in the breeze of the time  
Like a willow branch bend back and forth  
Back and forth  
In a dance  
Like a wave in the sea  
I stay free in a trance  
Dance in the wind  
Like a willow branch  
Dance in the wind  
Like a willow branch  
Back and forth  
Dance in the wind  
Like a willow branch  
Like a wave in the sea  
I'm in a trance

I'm up and down  
I'm all around  
You found a place to stay  
A place lay down low and keep your demons at the bay  
And if I may, I never seen a king put the crown away  
So step up and step lively  
These times are so exciting

I take M back to the root  
I can see straight through  
We make moves  
While the grooves change  
Do not get phased  
I was raised on the sound from an ancient child

The type to cry and crack a smile  
I know you been cracked for a while  
I see the insides come to the surface deep dig

Stay cool in the breeze of the time  
Like a willow branch bend back and forth  
Back and forth  
In a dance  
Like a wave in the sea  
I stay free I'm in a trance  
Dance in the wind  
Like a willow branch  
Dance in the wind  
Like a willow branch  
Back and forth  
Dance in the wind  
Like a willow branch  
Like a wave in the sea  
I'm in a trance

I'm in a trance  
Back and forth  
Back and forth  
Stay free like a willow branch  
Stay free like a willow branch  
Back and forth  
I'm in a trance
