

Fool's Gold

Matisyahu

I'm up against a titan
But I shine like a light when
The day become night ye
Appetite to ignite them
Stories I write
When I walk pon the pavement
I remember way when I was led astray
But I found my kingdom
Found my kingdom

You call me righteous
But I'm just the likeness
It's a fools fools gold
But even a fighter
Could fall from the heights for
It's a fools fools gold

Some people lift you up on a pedestal
They make you feel incredible
It's like I had a edible
Delectable treats when they come with the beats I'm in heaven y'all
Investing in me
Who, who would have thought
When I sing in the street
I felt invincible
Invincible

I may take the time I need
To find my own way
Keep my feet on solid ground
The things that you say

You call me righteous
But I'm just the likeness
It's a fools fools gold
But even a fighter
Could fall from the heights for
It's a fools fools gold

You call me righteous
But I'm just the likeness
It's a fools fools gold
But even a fighter
Could fall from the heights for
It's a fools fools gold

You call me righteous
But I'm just the likeness
It's a fools fools gold
But even a fighter
Could fall from the heights for
It's a fools fools gold
