

# For You

Matisyahu

Undo the clasps, cast the shackles to the sea  
They flee from themselves and they can't understand  
They burn humanity in their search to be free  
But freedom's not for sale

When you run for the moonlight  
To dance on a ray and become  
What you knew to be true but the time flew by  
You been searching for a reason why

And I, I will be there for you  
To search for you wherever you are  
And I, I will be there for you  
To look for you wherever you go

When you dance in the drizzle fizzle out  
Fist out, blissed out, shout it loud  
Through the clouds, oh and rock out  
I can't stop now 'cause I move like the breeze

With ease and grace we stay laced  
As we move through the space dancing on a blade  
Of grass at twilight a firefly fly free through the night  
I shine bright from the ground to the sky

And I, I will be there for you  
To search for you wherever you are  
And I, I will be there for you  
To look for you wherever you go

On and on we go as the world turns the world burns  
Come from Mount Zion and stay out of the whirlwind  
Move to the music 'cause the world don't sit still in silence  
We climb through blindness

And I, I will be there for you  
To search for you wherever you are  
And I, I will be there for you  
To look for you wherever you go
