

# Hard Way

Matisyahu

Who's gonna quench your thirst now  
Who can satiate  
Something you can't escape  
Who's gonna quench your thirst now  
Who can satiate  
Something you can't escape

But I'm not OK and I cannot stay  
When the trees go bare and sky goes gray  
When the medicine's gone and the dog has strayed  
When the hurricane hits and there's no barricades  
In my bed I lay but I'm wide awake  
Staring into the darkness, pain won't fade  
And my mind won't rest, what may follow  
In this hollow cave  
Rise from the dust  
I will rise from my grave  
Rise from the grave

Who am I to say  
I know nothing it seems  
Until it's way too late  
I'm learning this the hard way  
Who am I to say  
I know nothing it seems  
Until it's way too late  
I'm learning this the hard way  
Who am I to say  
I know nothing it seems  
Until it's way too late  
I'm learning this the hard way  
I'm learning this the hard way

I'm descending down  
Crushed up in the ground  
Broken kingdoms come  
Crashing all around  
Palace made of glass  
Thought that it might last  
So afraid of change  
Don't do anything rash

But now I need my sight  
More than ever before  
And yes you might be right  
That I opened up a door  
Everyone's right or wrong  
Everyone's got an opinion  
Well put it in a song  
And let me keep on livin'

Who am I to say  
I know nothing it seems  
Until it's way too late  
I'm learning this the hard way  
Who am I to say  
I know nothing it seems

Until it's way too late  
I'm learning this the hard way  
Who am I to say  
I know nothing it seems  
Until it's way too late  
I'm learning this the hard way  
Learning this the hard way

You say it's your cage  
You're a slave and wouldn't have it any other way  
And besides you built it up that way  
Who's gonna make you happy  
When you're your own worst enemy  
Who's gonna make you happy
