

# Head Right

Matisyahu

Word stir  
Days fade  
Words blur  
Don't say  
Word chase  
I concur  
Move like the wind  
I move like a wand  
Magic in the air  
Stay cool like James Bond  
007 put the 0 on the end  
770 its the beginning of the end  
Run for the desert  
Dragged down by the sun  
Lookin for the nighttime  
When the darkness comes  
Run across the tundra  
Number one wave runner  
I'll be tumbling down your hills forever  
I'm a man with many sides  
A cat with many lives  
Moved to California to get some sunshine  
Don't fit in a box and I don't need to try  
Expansive soul  
With my eye to the sky  
Forever ask the question  
Where do you lie  
Thank you for the sight  
I got my head right

And I know feelings come and go  
How can I hold on  
Should I let go  
Al of these forces keep on colliding  
Turning me inside out

Keep on going  
Keep on surviving  
All of these rhymes and lines keep the timing  
Keep on styling faces keep smiling  
All of these ups and downs get so tiring  
Sunrise coming up on the horizon  
First you love me then you despise me  
The line between love and hate keeps disguising  
I'm not your knight in armor  
I'm not your prince  
But I may be your karma

And I know feelings come and go  
How can I hold on  
Should I let go  
Al of these forces keep on colliding  
Turning me inside out

Pawing at my patience  
Pulling at my practicality  
Do the math

Ain't even got time for half of me  
Crawl to the backseat  
Running in circles like I'm at a track meet  
Track me and you'll see  
With a jet pack and sail off  
How much longer can I stay up  
Before I fall all the way down  
Leave a trail of blood behind me  
Wherever I be

And I know feelings come and go  
How can I hold on  
Should I let go  
All of these forces keep on colliding  
Turning me inside out

Well I live  
In the Valley of the kingdom

And I know feelings come and go  
How can I hold on  
Should I let go  
All of these forces keep on colliding  
Turning me inside out

When the wait is over  
Crush my heart and hope for life  
Pick up my life  
Try again  
Get it on
