

Raindance

Matisyahu

Like I'm caught in a vice
I'm caught in my vice's
Miami Vice became like every other night kid
That white wit my off white hoody I be shirtless
Inside so soft
It reminds me forgiveness
I been trying to flirt less
And to hurt less
Anxiety or depressed
Forgive me for this mess
Stress ball in ya chest
Please forgiveness
Kiss the crest of a wave
Like you been left at a rave
I like that high octane
To see how things get strange
Stranger till you start to strangle and
Tangle with deranged
So you catch another angle
Or you hit fast lane
Or take the next train
Or you play the blame game
Till you find the main vein
I been runnin' the same game
Same circles till I stop
And I start to wain
Or you try and maintain
Living life love pain
Got my elbows to the sky and I'm dancing in the rain
Native cries live and dance inside my fly bys is so fly raindance

Wash away
Wash them away
Let the rain fall
Watch it all fall away
All the kings men are praying
They just look away
Watching the rain fall
Wash it away
Let the rain fall, just let the rain fall
Let the rain fall let it all wash away
Fall away fall away

Back in my hotel room
Night off all alone
While the lamp casts shadows on the wall by the phone
Warm yellow lights echo from the call
Of the waves
As the pain falls away
Do as I may
Then I'll be on my way
I'll look back at the pain
I'll look back on the day
Then I'll bless all this pain
And I'm blessing the rain
Liberation
I need liberation

Feel the pressure building
I need liberation
Raindance

Wash away
Wash them away
Let the rain fall
Watch it all fall away
All the kings men are praying
They just look away
Watching the rain fall
Wash it away
Let the rain fall, just let the rain fall
Let the rain fall let it all wash away
Fall away fall away

I will do what I say
They will come as they may
All the blessings are fallen
And they just wash away
Now when they need some
That's how they start their day
Cause all of us bleeding
What more can I say

Just let the rain fall
Wash it all away
Let it rain and watch it all fall away
All the kings men are praying
They just look away
Watch the rain fall
And watch it all fall away
