

# Ritual

Matisyahu

I lose my balance  
I'm a tad bit out of touch  
You can't imagine  
All the times that I gave up  
It's been a battle  
Been on both sides  
Dark nights, until the sunlight  
Losing sleep 'cause I'm in too deep  
Imagine all the things I seen

Ooh  
My mind tells me lies  
No one's here to protect me  
Fill my cup when it's empty  
I had to draw the line  
Now I'm living my life

Unconditional  
Who gonna love you like me?  
Your my ritual  
When I look into your eyes  
Unconditional  
Who gonna love you like me?  
Your my ritual  
When I look into your eyes  
Your my ritual

Your my ritual

And I really wanna find the answer  
Is this a game to you?  
You need to pick and choose  
We can't afford to lose  
So, tell me what you gon' do  
Nobody heard me yell  
When I needed someone's help  
And I'm talking to myself

I had to draw the line  
Now I'm living my life

Unconditional  
Who gonna love you like me?  
Your my ritual  
When I look into your eyes  
Unconditional  
Who gonna love you like me?  
Your my ritual  
When I look into your eyes  
Your my ritual

Your my ritual

And I really wanna find the answer  
Is this a game to you?  
You need to pick and choose  
We can't afford to lose

So, tell me what to do  
Nobody heard me yell  
When I needed someone's help  
And I'm talking to myself
