

# Smoke & Mirrors

Matisyahu

I was looking for a path  
I was feeling like ghost  
So low  
Tryna find a dream to catch  
I keep digging deeper holes  
I know

If I could only find the key  
A vision of what I could be  
So close  
Something only I could see  
Yeah. You put it right in reach

When I let go  
All these distractions  
They keeping me under  
Pulling me back to a time  
Without love  
I know my worth  
And I know what I'm made of

There's a truth that could be my guide  
Push through the dark, take everything in stride  
I know there's no certain things in life  
But I know there's a beauty you can find  
Through the smoke and a mirror  
It's all getting clearer

Through the smoke and a mirror  
It's all getting clearer  
Yeah  
Clearer  
Clearer

I was on a mountaintop  
Looking at the far and wide  
I keep climbing my way up  
Tryna reach a peace of mind  
I can't turn back  
No. I cannot slide  
Slip like a boulder  
Crash and collide  
If I go further  
I'll find my light  
Only way on is to let go

When I let go  
All these distractions  
They keeping me under  
Pulling me back to a time  
Without love  
I know my worth  
And I know what I'm made of

There's a truth that could be my guide  
Push through the dark, take everything in stride  
I know there's no certain things in life

But I know there's a beauty you can find  
Through the smoke and a mirror  
It's all getting clearer

Through the smoke and a mirror  
It's all getting clearer  
Yeah  
Clearer  
Clearer

Through the smoke and a mirror

Through the smoke and a mirror
