

We Will Walk

Matisyahu

I told her you must go
You can't stay here
She said I know
Since the death blow
My soul's been oh like sand
I'm so tired
It's like my spirit expired

Remember when I was just a child yet
Now I feel like a star a daybreak about to expire
And get lost in the sun
Me and you
We gotta leave and just run and run

Don't wait for me while I'm down
Cause I might not get up
All I have is right now but I give you what I got

You are the only good thing that I have ever done
We will walk until my blood runs out until my heart is burned
You are not alone

Run yet run yet running away
Promised and you choose to stay
Up and down do look away
Climbing them most every day

...

Patience on top of a mountain
Pumping blood through the veins of creation

We are not alone

He aches for her but can't find his way can't live no more

I ache for her but can't find my way I can't live no more

She is not alone

Just before the light goes away
Comes a child that collects all the reasons to be

That laughs and that smiles
Moments of clarity

Exchanging them for another day
And so my heart continues to say

You are the only good thing that I have ever done
We will walk until my blood runs out until my heart is burned
You are not alone

Here we go it's you and me
Gotta let go
Gotta believe
Rip through negativity

Find a place that we can be

So I agree inevitably we can't stay here eternally
The day has come

The bottom's out don't be a grump

She said we got to go
We can't stay here
I said I know but got no place to go
The nights are cold
And we need a place to be

Remember when I was just a child yeah
Now I feel like a star a daybreak about to expire
And get lost in the sun
Me and you
We gotta leave and just run and run

Run and Run

Run and Run and Run

You can't stay

Can't stay

Run and Run

Run and Run and Run

We will walk until my blood runs out until my heart is burned
