

Radio Edit

Matmatah

Do I have to cut this bar ?
Got a call from the A&R
They said : "Hey baby, we can make you be a star !
Yeah, we love your song
But the track's too long
- Sir, I'm not so dumb
'know something's wrong"
You say you need a radio edit
Well, I'm gonna think about it
You say you need a radio edit
Of course, I can do it
For all the mixes I could do for you, especially for you
I'll do
Now you got my radio edit, make it a hit

You say you really need a better edit
I'm gonna cut in it, you're gonna love it
You say you really need shorter lyrics
We all want to move units
For all the mixes I could do for you, especially for you
Fuck you.
Now you got my radio edit, make it a hit
Now you got my radio edit, make it a shit
