

## Let Me

MATOMA

Wanna feel you rushing through my bones  
Gonna crash my waves into your coast  
If you let me, if you let me  
If you let me, if you let me  
It's like summer rain when you get close  
I would give my body, mind and soul  
If you let me, if you let me  
If you let me, if you let me

Ooh, when you get heavy  
I'll make you lighter

If you let me, if you let me  
If you let me

When we met it was lightning  
In my chest, can't forget to let your fire in  
I can fight all the feelings, I can hide in your eyes  
It's hypnotizing, it's hypnotizing, mmh

Wanna feel you rushing through my bones  
Gonna crash my waves into your coast  
If you let me, if you let me  
If you let me, if you let me  
It's like summer rain when you get close  
I would give my body, mind and soul  
If you let me, if you let me  
If you let me, if you let me

Ooh, when you get heavy  
I'll make you lighter

Wanna feel you rushing through my bones  
Gonna crash my waves into your coast  
If you let me, if you let me  
If you let me, if you let me  
It's like summer rain when you get close  
I would give my body, mind and soul  
If you let me, if you let me  
If you let me, if you let me
