

Never Surrender

MATOMA

When I was a kid I used to be shy
Getting bullied in class, yeah, I was trying to hide
Fallen to pieces, crying in the dark all night
Finding my feet has taken me a long long time

But I, I know I, I will never surrender
I, I know I, I will always remember
The feeling in your heart, don't you ever let it go
There's a fire within you
I, I know I, I will never surrender
I will never surrender
I will never surrender
The feeling in your heart, don't you ever let it go
There's a fire within you
I, I know I, I will never surrender

To all of the haters and all of the liars
Just know that your words are fuel to my fire
People are people, and everybody hurts sometimes
Finding my feet has taken me a long long time

But I, I know I, I will never surrender
I, I know I, I will always remember
The feeling in your heart, don't you ever let it go
There's a fire within you
I, I know I, I will never surrender
I will never surrender
I will never surrender
The feeling in your heart, don't you ever let it go
There's a fire within you
I, I know I, I will never surrender
