

## Distant Axis

**Matt Berninger**

You came back to me around a distant axis  
I didn't even hear the door  
I was looking up at the levels in between us  
'Cause I was sinking through the floor

If only you, if only you would come  
Around the distant axis  
I would do whatever you wanted me to  
If only you, if only you would come  
Around the distant axis  
I feel like I'm as far as I can get from you

I'm getting pulled away around the distant axis  
I guess I'll have to wait and see  
There's a pattern to the way the world is tearing up  
I think it's happening to me

If only you, if only you would come  
Around the distant axis  
I would do whatever you wanted me to  
If only you, if only you would come  
Around the distant axis  
I feel like I'm as far as I can get from you  
I feel like I'm as far as I can get from you  
I feel like I'm as far as I can get from you
