

## Frozen Oranges

**Matt Berninger**

Fix my breakfast of flavored ice  
Sit outside in the sun with the houseflies  
I could concentrate in a place like this  
In Indiana

Can I borrow your bike for a while?  
I need to get some things off my mind  
I think I'll tool around along the river till I'm lost

There's frozen oranges in the trees in Indiana, in Indiana  
And crystal apples in the creeks, in Indiana, in Indiana

Put the powder in a metal water bottle  
We're going swimming in, in a limestone quarry  
It's Saturday! It's Saturday!

There's frozen oranges in the trees in Indiana, in Indiana  
And crystal apples in the creeks, in Indiana, in Indiana

Catch a beetle in my teeth  
And put it in an envelope, and bring it to you  
It's not really an animal  
You need to receive something beautiful  
That you can feel sorry for  
Anything other than yourself, that's what I tell myself  
Put it on a string and take it to a festival, I don't know

Maybe we should find the place where O'Hara died  
Maybe we can get inside  
Bet you anything he had some secrets  
Bet you anything he kept 'em in the fridge  
Maybe we should go to church or the hospital  
Maybe we should stop and talk to the cops a little  
Wouldn't be a bad idea for them to know my face
