

# A Memory For Lovers

Matt Bianco

You were the first love in my life  
The innocence and joy  
I never felt that way before  
I couldn't love you anymore  
Can't take away those memories  
When you were everything to me

They played our record on the radio  
A memory for lovers  
Do you ever think about me now

Echoes of love that still remain  
Forever in my heart  
Though we have gone our separate ways  
And we're a million miles apart  
Those were the days of living free  
When you were everything to me

They played our record on the radio  
A memory for lovers  
Do you ever think about me now

We danced all night  
We took the floor  
This was our song  
In eighty four  
The fun we had  
The simple things  
Who cares what tomorrow brings

They played our record on the radio  
A memory for lovers  
Do you ever think about me now

We had nothing to fear  
We had nothing to lose  
We come and we go  
Whenever we choose  
Don't have to explain  
Or know what it means  
Yeah just for tonight  
We're living the dream

They played our record on the radio  
A memory for lovers  
They played our record on the radio  
A memory for lovers
