

## Deep Space

Matt Bianco

Deep space  
Oh, you take me to a new place  
I never felt like this before  
We touch the stars right now

And we fall into a deep space  
Oh, I'm pulled into your embrace  
I can feel the symmetry  
The energy of love

Deep space  
Oh, you take me to a new place  
I never felt like this before  
We touch the stars right now

You fly me to the moon...  
Ba ba-dup ba-dup biyah...

Deep space  
Oh, you take me to a new place  
I never felt like this before  
We touch the stars right now

And we fall into a deep space  
Yeah, I'm pulled into your embrace  
I can feel the symmetry  
The energy of love

Come on, baby  
You fly me to the moon...  
Ba ba-dup ba-dup biyah...
