

Fly By Night

Matt Bianco

Saw you hanging out in other places
Always with the people to be seen
You were there one minute
Then the next you're gone

Knowing that you'd ask if I would see you
But in the past you'd never notice me
You were there one minute
Then the next you're gone

Fly by night
Fly by night
Fly by night
Fly by night

Had a dream some day we'd be together
Before we met you let my dream come true
You were there one minute
Then the next you're gone

Fly by night
Fly by night
Fly by night
Fly by night

Things were looking up and I was happy
But love so claudine I was such a fool
You were there one minute
Then the next you're gone

Fly by night
Fly by night
Fly by night
Fly by night yeah

Fly by night
Fly by night
Fly by night
Fly by night
