

# Gravity

Matt Bianco

I never knew a time  
And I never had the feeling that  
Everything I know is turning  
Upside down

Since the day I met you  
Was it real or was I dreaming, oh  
Baby, can't you see my feet  
Won't touch the ground

Gravity

I'm running up the wall  
And I'm walking on the ceiling  
Everything is slow motion  
That is what I see

I'm lookin' for a sign  
Gotta find a clear horizon, oh  
Baby, look at what your love  
Has done to me (yeah)

Gravity

I don't know where this is going  
I do it anyway  
Whatever way  
The wind is blowing  
That's my day today

Can you let me down to  
Review the situation  
I need to get myself back onto  
Solid ground

There's something 'bout your love  
And I need an explanation as  
Every time we kiss  
You shake my world around

(Around and around)  
Gravity  
You got me walkin' on the ceiling will  
I ever come down?

There's something 'bout your love...  
Oh baby  
Something 'bout your love  
Something about your love  
Is playing with my natural gravity, ooh

Gravity  
Graah-ah-ah-vity  
Gravity  
Ooh, uh  
Gravity

My baby  
I'm falling to  
Your gravity
