

Hanging On

Matt Bianco

Tell me where we go from here, girl
I'm just too scared to let it go
With all the things we used to share
Don't matter anymore
The little things we fight about
What are we fighting for?

Hanging on
And now it doesn't matter
Just keep hanging on
The way it used to be
There's nothing I can say
And there's nothing you can do, baby
I still love you
I just keep hanging on

(Hanging on)
(Keep hanging on)

Girl, there came a time when we were no longer
Smiles and faded feelings seemed to change
So why don't we go on and on?
Where did we go so far wrong?
Why don't we keep hanging on
When all that's left is pain?

Hanging on
But now it doesn't matter
Just keep hanging on
The way it used to be
There's nothing I can say
And there's nothing you can do, baby
I still love you
I just keep hanging on

Hoping against all hope it would get better
Praying against all odds that we'd be fine
Wishing that you and I were starting over
One more time (One more time)

(Hanging on)
(Keep hanging on)

Hanging on
And now it doesn't matter
Just keep hanging on
The way it used to be
There's nothing I can say (What can I say)
And there's nothing you can do, baby
I still love you
I just keep hanging on, yeah
Just keep hanging on
Where do we go from here, girl
Keep hanging on
Just keep hanging on
Just keep hanging on
Just keep hanging on

Just keep hanging on
Just keep hanging on
Keep hanging on
Just keep hanging on
Just keep hanging on
Just keep hanging on
