

Invisible

Matt Bianco

Movin' to the beat
Many faces in the street
Keepin' outta sight
You never catch my eye

Oh, places that we go
Everybody seems to know
No, we never stop
We're just passing by

Then I saw your face
I was lost in your time and space
But I can't get close to you

When I turned around
You would vanish without a trace
In the crowd, I see right through

Invisible
Invisible
Can you see me?

Ridin' on a train
Every day is just the same
And I'm looking out the window
Killing time
People in a row
Shifting to and fro
And I'm counting down
The stations of my life

Then I saw your face
I was lost in your time and space
But I can't get close to you

When I turned around
You would vanish without a trace
In the crowd, I see right through

Invisible (Ah, yeah)
Invisible
Can you see me?

When I saw your face
I was lost in your time and space
But I can't get close to you

When I turned around
You had vanished without a trace
In the crowd, I see right through
Invisible (Aah, yeah)
Invisible

I say you are the one
My imagination runs
If I saw you now
Would I ever know...

I got the same thing every night
And my dreams can't make it right
If I had the chance
I'd never let you go

When I saw your face
I was lost in your time and space
But I can't get close to you

When I'd turn around
You would vanish without a trace
In the crowd, I see right through

Invisible (Aah yeah)
Invisible
Did you see me?
Did I see right through you
Invisible (ow!)
