Comes in front with a double identity
Spending time with people he can't see
Losing his conviction is the fear
What he has to say they just don't hear

Money's going 'round and he sees what's going down
He knows this is the place that he's got to be

He knows
(It's the place he's got to be)
He takes a ride through the city
(Looking for the key)
But sooner or later
He'll break away and
