

Tranquilo

Matt Bianco

Meet me on the corner
Sit and watch the world go by
Take a little sunshine
We don't need an alibi
Talk about the good times
Maybe drink a little wine
You don't need to worry
You know everything is fine

Too many people on the run
But they can't stop what they've begun

Hey that's what I say
Tomorrow is another day
Tranquilo
Hey that's what I say
Let all your worries fade away
Tranquilo

We're not in a hurry
We're just walking down the street
Listen to some music
With the people that we meet
Everyone together
Watch the pretty girls go by
No one does it better
We don't need a reason why

Too many people on the run
But they can't stop what they've begun

Hey that's what I say
Tomorrow is another day
Tranquilo
Hey that's what I say
Let all your worries fade away
Tranquilo

Too many people on the run
But they can't stop what they've begun

Hey that's what I say
Tranquilo
Hey that's what I say
