

You're the Rhythm - Brazil

Matt Bianco

On a night like this
And the music's running through my mind
How can I resist
When I think about you all the time

Nothing seems so real
I've got to tell you how I feel

You're the rhythm of my life
You will always be inside of me
It's a feeling I can't hide
In my heart which'll never die
You're the rhythm of my life
I just love the things you do to me
It's a spirit - take me high

When I hold you in my arms
Girl, it's like all colorful inside
Yeah, yeah
Your beat within my heart
You know when I'm with you
I'm so alive
Oh, I'm alive

Nothing seems so real
I've got to tell you how I feel

You're the rhythm of my life
You will always be inside of me
It's a feeling I can't hide
In my heart which'll never die
You're the rhythm of my life
I just love the things you do to me
It's a spirit - take me high

Take me high

You're the rhythm
Yeah
You're the rhythm
Oh, la, la, la
You're the rhythm
Hey!
You're the rhythm

You're the rhythm of my life
You will always be inside of me
It's a feeling I can't hide
In my heart which'll never die
You're the rhythm of my life
I just love the things you do to me
It's a spirit - take me high

You're the rhythm of my life
You will always be inside of me
It's a feeling I can't hide
In my heart which'll never die

You're the rhythm of my life
I just love the things you do to me
It's a spirit - take me high
