

Your Destiny

Matt Bianco

Walking down the street of destiny it's all up to you
Chances that you meet fall at your feet so what do you do
You know that this is your life
Take the time for the things you care about
There's no doubt just reach out you'll find a way
What you say

So what you give is what you get
You know that nothing comes that easily
But there's one thing that you can bet
All the greatest things in life are free
Your destiny, your destiny

Intentions that are true will always bring to you I better life
Believe in who you are and you'll go far only you can decide

You know that this is your life
Take the time for the things you care about
There's no doubt just reach out you'll find a way
What you say

So what you give is what you get
You know that nothing comes that easily
But there's one thing that you can bet
All the greatest things in life are free
Your destiny, your destiny

It's up to you, if you believe in you I'll believe in you

So what you give is what you get
You know that nothing comes that easily
But there's one thing that you can bet
All the greatest things in life are free
Your destiny, your destiny

So what you give is what you get
You know that nothing comes that easily
But there's one thing that you can bet
All the greatest things in life are free
Your destiny, your destiny
