

Jump

Matt Cab

Everybody jump, jump,
Everybody jump, jump

I got a feeling, it's taking over me
T-t-t-taking over me
My heart is racing, I can feel the energy
So let the music take control
... change your thrones, dance, dance, dance, dance
It's like a rhythm to your soul
So let's take it to the floor
We dance, dance, dance,

We don't care, so pump your fists in the atmosphere
We don't care, just let the music take you there

And everybody jump, we're gonna reach for the stars tonight
Everybody jump, like it's the last night of your life
Everybody jump, jump, jump, jump
Everybody jump, jump, jump, jump
Yeah everybody jump, jump, jump, jump
Yeah everybody jump, jump, jump, jump
Everybody jump,
Shut it down!
We shit it down!
Shake the ground!
Everybody jump

The bass is pounding, like the walls are coming down
My eyes are open, it's like I can see the sound
So let the music take control
... change your thrones, dance, dance, dance, dance
It's like a rhythm to your soul
So let's take it to the floor
We dance, dance, dance,

We don't care, so pump your fists in the atmosphere
We don't care, just let the music take you there

And everybody jump, we're gonna reach to the stars tonight
Everybody jump, like it's the last night of your life
Everybody jump, jump, jump, jump
Everybody jump, jump, jump, jump
Yeah everybody jump, jump, jump, jump
Yeah everybody jump, jump, jump, jump
Everybody jump,

All the lights flashing round and round
Speakers and pumping, release the sound
The crowd is jumping, we'll shake the ground
Oho, oho, oho
Then everybody see
All the lights flashing round and round
Speakers and pumping, release the sound
The crowd is jumping, we'll shake the ground
Oho, oho, oho

And everybody jump, we're gonna reach for the stars tonight

Everybody jump, like it's the last night of your life
Everybody jump, jump, jump, jump
Everybody jump, jump, jump, jump
Yeah everybody jump, jump, jump, jump
Yeah everybody jump, jump, jump, jump
Everybody jump.
