

# The One

Matt Cab

She could be the one (yea)  
She could be the one (yea)  
She could be the one (yea)  
She could be the one the one  
See u let it go it knocks me off my feet  
Didn't think that this could happen happen  
Cause everytime I see her my heart stops to beat  
Couldn't be another reason reason

I think it's love at first sight  
And she was sent from above  
And I can't sleep at night  
Cause I need her love her love

She could be the one the one the one  
She could be the one the one the one  
She could be the one the one the one  
She could be the one (one one one one one one)  
The one (one one one one one one)  
I know she looks at me  
I get the feeling inside  
I can't seem to rest a minute  
She got me mesmerized and I can't hide  
She got me going out of my mind

See you're not the type to believe in destiny  
But girl u know you're one in a million  
There's something about the way u look at me  
And I just can't fight this feeling

I think it's love at first sight  
And she was sent from above  
And I can't sleep at night  
Cause I need her love her love

She could be the one the one the one  
She could be the one the one the one  
She could be the one the one the one  
She could be the one (one one one one one one)  
The one (one one one one one one)  
I know she looks at me  
I get the feeling inside  
I can't seem to rest a minute  
She got me mesmerized and I can't hide  
She got me going out of my mind

I would cross an ocean  
Nothing I won't do  
I would move a mountain  
Just to get to u  
I'm one of the type of fool  
I'm looking back to  
Try to find the one for me  
And I'm not gonna stop till I find my love  
She's the only one I see

She could be the one the one the one

She could be the one the one the one  
She could be the one the one the one  
She could be the one (one one one one one one)  
The one (one one one one one one)  
I know she looks at me  
I get the feeling inside  
I can't seem to rest a minute  
She got me mesmerized and I can't hide  
She got me going out of my mind
