

Chemical

Matt Cardle

Another fever's kicking in
The shivers in my bones begin
A little switch I'm flicking off
And on
The longest nights are rolling in
Naked flames on soaking skin
I don't wanna let it go

I think it's time
That we set it up
Reactions in the chain
Set it off
Don't let it stop
I can't get enough
It's from within us
It's chemical
It's chemical

Cover my face in broken hairs
Can't disguise a broken man
Wanna turn my cravings off
And on
Such a messed up circumstance
In my shoes a stranger stands
I don't wanna let him go

I think it's time
That we set it up
Reactions in the chain
Set it off
Don't let it stop
I can't get enough
It's from within us
It's chemical
It's chemical

Inside my mind it's getting dark
A steady beat of a racing heart
I don't wanna let it go

I think it's time
That we set it up
Reactions in the chain
Set it off
Don't let it stop
I can't get enough
It's from within us
It's chemical
It's chemical
It's chemical
It's chemical
