

Desire

Matt Cardle

One lover, one human
Tell me what I have to do
My focus so fierce
The only way to see it through
One lover, one human
Everything I feel is true
So pure, so perfect
And I'm certain that it's you

I've been walking in my sleep
I've been talking in my dreams
Try to stop but it's impossible, it seems

Desire, desire
Desire, set fire
And burn us to the ground
Desire, desire
Desire, set fire
And burn us to the ground

You hide but you're here
Nowhere in the world to be
You're loud and you're clear
And you're coming through to me

You've been walking in your sleep
You've been talking in your dreams
Try to stop but it's impossible, it seems

Desire, desire
Desire, set fire
And burn us to the ground
Desire, desire
Desire, set fire
And burn us to the ground

I've been walking in my sleep
I've been talking in my dreams
Tryna stop but it's impossible, it seems

I've been walking in my sleep
I've been talking in my dreams
Tryna stop but it's impossible, it seems

Such a beautiful light we're swimming in
We live to find we're shimmering
Come with all your heart out to me, yeah
We got a feeling just like we're giving it
We lit the fire, we're shimmering
So come with all your heart out to me, yeah

Desire, desire
Desire, set fire
And burn us to the ground
