

Higher Power

Matt Cardle

Come on, lean back on me
I can tell you're not strong
I can see all you need
Is something to rely on

Come on, lean back on me
I can tell you're grieving
And I can see all you need
Is something to believe in

I got love if you want it
I got faith if you need it
I'll be your higher power
Your higher power
I got love if you want it
Faith if you need it
I'll be your higher power
Your higher power

Come on now, let me leave
It's too close to the edge
And I won't just let you be
You're no good to me dead

I got love if you want it
I got faith if you need it
I'll be your higher power
Your higher power
I got love if you want it
Faith if you need it
I'll be your higher power
Your higher power

So just let go
If you want to leave this life
But hold on
If you want me by your side
Just close your eyes
If you want to call it time
Or hold on, hold on, hold on tight

I'll be your higher power
Your higher power
Hold on tight...
I'll be your higher power
Your higher power

I got love if you want it
I got faith if you need it
I'll be your higher power
Your higher power
I got love if you want it
Faith if you need it
I'll be your higher power
Your higher power
