

Lost & Found

Matt Cardle

Spirits were gathering dust
Somewhere familiar enough
To stay, alone
Mixed with my kind and care
No one could find me in there
What have I done?

I hope, I don't let you down
I won't let you down
I would not be here
If I left myself in the lost and found

I started causing a scene
Trying to break the routine
Of days, so long
Waiting for someone, somewhere
To try and get me from there
And take, me on

I hope, I don't let you down
I won't let you down
I would not be here
If I left myself in the lost and found

Don't take me back, don't take me back
To the lost and found
Don't take me back, don't take me back

I hope, I don't let you down
I won't let you down
I would not be here, oh
I hope, I don't let you down
I won't let you down, yeah
