

# Time to Be Alive

Matt Cardle

It feels like snow has come again  
It's taking hold of everything now  
I'm calling out to you again  
To you again

The wild nights have gone again  
And through the silence  
I hear you somehow  
I'm calling out to you again  
To you again

I'm out in the cold night  
Still so in love So alone  
I'm out in the cold night  
Calling to you  
Pick up the phone

She says  
Maybe if you don't feel right  
Everybody loves  
Everybody loses  
Maybe we get hurt sometimes  
Maybe it's time to be alive  
Maybe it's time to be alive  
Maybe it's time to be alive

I feel us fade to black again  
I walk from here  
But I make it somehow  
I've been to hell  
But I'm back again  
I'm back again

I'm out in the cold night  
Still so in love So alone

I'm out in the cold night  
Calling to you  
Pick up the phone

She says  
Maybe if you don't feel right  
Everybody loves  
Everybody loses  
Maybe we get hurt sometimes  
Maybe it's time to be alive  
Maybe if you don't feel right  
Everybody loves  
Everybody loses

Maybe we get hurt sometimes  
Maybe it's time to be alive  
Maybe it's time to be alive  
Maybe it's time to be alive

Maybe it's time to be alive  
Maybe it's time to be alive

Maybe if you don't feel right  
Everybody loves  
Everybody loses  
Maybe we get hurt sometimes  
Maybe it's time to be alive  
Maybe if you don't feel right  
Everybody loves  
Everybody loses

Maybe we get hurt sometimes  
Maybe it's time to be alive
