

Do You No Harm

Matt Corby

I won't do you no harm, do you no harm
I won't let them do you no harm, do you no harm
The markings won't do you no harm, do you no harm
Your bruises won't do you no harm

I'm sick and tired got to get out and catch the morning dawn
Let me back down and assume what I got left to say
I'm too tired but I've barely even waited long
I'm too down to be driving in the evening

I won't do you no harm, do you no harm
I won't let them do you no harm, do you no harm
The markings won't do you no harm, do you no harm
Your bruises won't do you no harm

I'm sick and tired got to get out and catch the morning dawn
Let me back down and assume what I got left to say
I'm too tired but I've barely even waited long
I'm too down to be driving in the evening

I got this feeling that we're tied up
Do you feel like we're all wired up
You only take from me
You won't just wait with me
I got this feeling that we're tied up
Do you feel like we're all wired up
You won't embrace me
You won't escape with me

I'm sick and tired got to get out and catch the morning dawn
Let me back down and assume what I got left to say
I'm too tired but I've barely even waited long
I'm too down to be driving in the evening
