

First Things First

Matt Corby

First things first
I find a place
A nice big piece of grass
Sit right down and think about
The other side of town
Oh ain't you glad you been living 'round here
Ain't you glad that you're free
Oh is all good to know you got a friend
That will help you out til the very end of time
Your mind's alive with crawly things that go
Runnin' round your mind
They tell you when right or wrong
And they keep you from goin' insane
Oh baby ain't you glad you been livin' round here
Ain't you glad that your free yeah
Oh it's all good to know you got a friend that will
Help you out til the very end of time
Oh do you see what I mean
There's always someone there to disagree
Oh I was sittin' on that nice green grass
Thoughts goin' through my mind
I'm thinkin' about cutting it fine
And sing a little song and praying for it all
Ain't you glad you been livin' round here
Ain't you glad that your free
It's so good that you got a friend that will
Help you out til the very end
