

# Lover

**Matt Corby**

Lover  
One thing that we can't forget  
Time, it ain't got no regrets  
Instead, it creeps ahead  
We'll never run out of that

Lover  
You and I are quite the team  
You got everything I need  
At least that's what I believe  
We'll never run out of that

It's the less we know  
That brings out the best of both  
Sadly the point of the dreams  
Not to know what it means  
Just to feel it all

Lover  
One thing that we can't forget  
Time, it ain't got no regrets  
Instead, it creeps ahead  
We'll never run out of that

Lover  
You and I are quite the team  
You got everything I need  
At least that's what I believe  
We'll never run out of that

Ribbons in the sky  
Drawing from the earth  
That's how you know rain is gonna fall  
Nature of it all  
Never run out of that

It's the making of  
Something that's never been done  
Sadly we all play our part  
If we like it or not  
That's the weight of love

Lover  
One thing that we can't forget  
Time, it ain't got no regrets  
Instead, it creeps ahead  
We'll never run out of that

Ribbons in the sky  
Drawing from the earth  
That's how you know rain is gonna fall  
Nature of it all  
Never run out of that
