

## Talk It Out

Matt Corby

We both see a different view  
Even when we're lying next to each other  
I navigate the space around you  
So much of us is hidden undercover

And if we can't do this together  
Speak about it, or my love you start to doubt it  
And if we complicate the matter  
We lose the vision from one stupid decision

Let's talk it out, talk it out, talk it out  
Baby, let's talk it out, talk it out, talk it out

I guess we didn't think this through  
We were too in love to think about tomorrow  
Everything I gave to you  
Left you no need to beg, steal or borrow

And if we can't do this together  
Speak about it, or my love you start to doubt it  
And if we complicate the matter  
We lose the vision from one stupid decision

Let's talk it out, talk it out, talk it out  
Baby, let's talk it out, talk it out, talk it out

If we can't do this together  
Baby let's talk, talk, talk, talk it out

Talk it out, talk it out  
Speak about it  
Baby, let's talk it out, talk it out, talk it out  
Speak about it
