

# What The Devil Has Made

**Matt Corby**

Tide pull me under  
Tie me up when I don't remember  
Well the sun caught me sleeping  
So am I the measure of my own fate  
Death just won't wait

Somebody moved up moved on you gotta take their war to the grave  
In this world the cruel will show you gotta take what the devil has made  
Somebody moved up moved on you gotta take their war to the grave  
In this world the cruel will show you gotta take what the devil has made

I am a sleeper  
For a while getting deeper  
To the water for your sins until death knocks at your door  
So am I the measure of my own fate  
Death just won't wait

Somebody moved up moved on you gotta take their war to the grave  
In this world the cruel will show you gotta take what the devil has made  
Somebody moved up moved on you gotta take their war to the grave  
In this world the cruel will show you gotta take what the devil has made

Somebody moved up moved on you gotta take their war to the grave  
In this world the cruel will show you gotta take what the devil has made  
Somebody moved up moved on you gotta take their war to the grave  
In this world the cruel will show you gotta take what the devil has made
