

# Make That Change

**Matt Costa**

There's nothing like  
Staring at the ceiling  
There's nothing like  
Thinking what could have been  
There's nothing like worry  
To take your mind off everything

There's nothing like  
Feeling so helpless  
It's looking like  
A cigarette sunrise  
There's nothing like yesterday  
To take you away from your tomorrow

You're gonna make that change  
I know that it's gonna get rough  
You gotta go with the flow sometimes  
It doesn't mean that you give up  
Because the start is the finish line  
Even if you take two steps backs  
You gotta make that change  
To see a brighter day  
Soon

There's nothing like  
Lying to yourself  
There's nothing like  
Hiding from yourself  
There's nothing like vices  
Freedom lies in color blindness

You gotta make that change  
I know that it's gonna get rough  
You gotta go with the flow sometimes  
But it doesn't mean that you give up  
Because the start is the finish line  
Even if you take two steps backs  
You're gonna make that change  
To see a brighter day  
Soon

You gotta make that change  
I know that it's gonna get rough  
Go with the flow sometimes  
It doesn't mean that you give up  
Because the start is the finish line  
Even if you take two steps back  
You're gonna make that change  
To see a brighter day  
Soon  
Soon
