

# All About Me

Matt Dusk

What a fine mess I got myself into this time  
Who'd have thought a guy like me would crumble?  
I'm sure that not a soul would ever guess that  
I'm finding it hard to even stumble

I used to think that I was strong  
I used to think the world revolved around me  
Never thought that I was wrong  
And this big foot doll almost drowned me

But I'm breaking out of my routine  
And about time that I come clean  
And it's all good and it's all new  
Let's re-introduce myself to you

No trouble that I'm in  
There's no way that I can't win  
And a good man I will be  
Once I learn it's not all about me

There was a day when the walls were covered with my face  
Walking through, you'd think it was my mother's  
There was not a single hair out of place  
One eyebrow just a little bit higher than the other

I used to think that I was cool  
I used to think the world was for the taking  
Going to a brand new school  
Look at all the friends I'm making

'Cuz I'm breaking out of my routine  
And about time that I come clean  
And it's all good and it's all new  
Let's re-introduce myself to you

No trouble that I'm in  
There's no way that I can't win  
And a good man I will be  
Once I learn it's not all about me

Myself and I, yes, we made a deal  
To become a better man  
So throw away the books  
And just do it by feel

'Cuz I'm breaking out of my routine  
And about time that I come clean  
And it's all good and it's all new  
Let's re-introduce myself to you

No trouble that I'm in  
There's no way that I can't win  
And a good man I will be  
Once I learn it's not all about me

Breaking out of my routine  
And about time that I come clean

And it's all good and it's all new  
Let's re-introduce myself to you

No trouble that I'm in  
There's no way that I can't win  
And a good man I will be  
Once I learn it's not all about me
