

# Human

**Matt Dusk**

Visceral chain reaction  
Like every cell in me suddenly all believe  
In laws of attraction  
Chemicals flooding my bloodstream  
Feeling the veins in me high on our chemistry  
A moment of passion

You give me goosebumps, you get me tongue-tied  
You make my head rush, I'm trembling inside  
My hunger and thirst is strong and voracious  
When I'm with you

I thank God I'm only human  
I thank God I'm only human  
Oh I thank God I'm only human  
'Cause I like the way it feels  
Being with you woman  
Oh I thank God I'm only human

Visual tracing your outlines  
You look like a masterpiece, bringing me to my knees  
I'm worshiping you tonight  
You're in control and tangled like wild vines  
We're beating up a sweat, I need to catch a breath  
Never felt so alive

You give me goosebumps, you get me tongue-tied  
You make my head rush, I'm trembling inside  
My hunger and thirst is strong and voracious  
When I'm with you

I thank God I'm only human  
I thank God I'm only human  
Oh I thank God I'm only human  
'Cause I like the way it feels  
Being with you woman  
Oh I thank God I'm only human  
(I thank God, I thank God)  
'Cause I like the way it feels  
Being with you woman  
(I thank God, I thank God)  
Oh I thank God I'm only human
