

# Packed Up My Love

**Matt Hammitt**

If you're ever wondering where you belong  
Or you start to think maybe you're all alone  
I can't always travel the roads you'll be on  
So I packed up my love for you here in this song

There's so much inside you I know you can't see  
But you are exactly who you're made to be  
If you can't get that check on your Instagram feed  
Well, let me remind you, you matter to me

Know when you don't have the right words to speak  
You can just sit silently here with me  
But when you're ready to say what you mean  
No matter what pours out I'm not gonna leave

Late in the night when you can't rest your mind  
Just know you can call me no matter what time  
If you need me to run to your side cause you're scared  
Hell or high water I will be there

If you're ever wondering where you belong  
Or you start to think maybe you're all alone  
I can't always travel the roads you'll be on  
So I packed up my love for you here in this song
