

To the Finish

Matt Hammitt

There at the start love gives you wings
Feels like you're flying so free
Eyes open wide, head full of dreams
A moment you never wanna leave

I've got your hand
You've got my heart

We're in this to win this
Two hearts, one promise
To the finish, we're in this
To win this

When life becomes real, puts love to the test
God give us the grace to fight on and forgive
And there will be breaks, there will be bends
But nothing can keep us from reaching the end

Cause you've got my hand
And I've got your heart
Together we'll make it

Cause we're in this to win this
Two hearts, one promise
That in sickness and health, rich or in need
I will love you faithfully
To the finish, we're in this
To win this

Sometimes reality doesn't look like our dreams
What if our fairy tale is meant to be
Set to the bittersweet sound of a symphony
Pleasure and pain embracing
In sickness and health, till our final breath
Better or worse, as long as we live

'Cause I'm in this to win this
Two hearts, one promise
Oh, I'm in this to the finish
Like the best and the worst come with it
Oh, in sickness and health, rich or in need
True love given faithfully
We've got in this to the finish
I'm in this, we're in this
To win this
