

# Where Did That Dreamer Go

**Matt Hammitt**

Where did that dreamer go  
The one that I used to know  
When did the starlight  
Dwindle from your eyes  
Where did that dreamer go

When did two worlds collide  
Fall into the atmosphere of real life  
I see a shadow  
There where you once glowed  
Where did that dreamer go

Oh, look at where you are now  
It hurts to see you burnt out  
You used to be a star  
But you lost your glow

Don't you think it's time  
To step into the light  
And reignite
