

# You're Watching Over Me

Matt Hammitt

Your Words on my heart  
Written in the stars  
Constellations, all creation  
Tells me where you are  
Oh, I know where you are

You are everywhere  
I can't look away  
Cause everywhere I turn  
I still see Your face  
Every single day I touch Your fingerprints  
Every night I rest in Your promises  
You're watching over me, over me (Eh, yeah)  
You're watching over me, over me (Eh, yeah)

Well, Your light in the dark  
Shows me You're not far  
And when there's questions I can't answer  
I know where you are

You are everywhere  
I can't look away  
Cause everywhere I turn  
I still see Your face  
Every single day I touch Your fingerprints  
Every night I rest in Your promises  
You're watching over me, over me (Eh, yeah)  
You're watching over me, over me (Eh, yeah)

Love I can't outrun  
Grace I can't escape  
Even when I close my eyes  
I feel your embrace  
Love I can't outrun  
Grace I can't escape  
Even when I close my eyes  
I feel your embrace

You are everywhere  
I can't look away  
Cause everywhere I turn  
I still see Your face  
Every single day I touch Your fingerprints  
Every night I rest in Your promises  
You're watching over me, over me (Eh, yeah)  
You're watching over me, over me (Eh, yeah)  
You're watching over me, over me (Eh, yeah)  
You're watching over me, over me (Eh, yeah)
