

# I Don't Want to Let You Go

Matt Hires

Wasted every word  
Running out of time with you  
Somewhere down the line  
We'll find that what we had was true  
But we quit before we started

I don't want to let you go  
Darling  
I don't want to let you go  
I'm falling  
Everytime you close  
My heart is turning over  
But I don't want to let it show  
Cause I don't want to let you go

We couldn't stop where we were going  
Cause all our fears got in the way  
We were swallowed by an ocean  
Of everything we didn't say  
And the water is getting colder

I don't want to let you go  
Darling  
I don't want to let you go  
I'm falling  
Everytime you close  
My heart is turning over  
But I don't want to let it show  
I don't want to let you go

I don't want to let you go  
Darling  
I don't want to let you go  
I'm falling  
Everytime you close  
My heart is turning over  
But I don't want to let it show

And I don't want to let you go  
Darling  
I don't want to let you go  
I'm falling  
Everytime you close  
My heart is turning over  
But I don't want to let it show  
I don't want to let you go  
I don't want to let you go  
I don't want to let you go  
I don't want to let you go
