

Forever

Matt & Kim

Together, we'll bring our A team
There's no second string
Mr T with all those rings
Like the 92 dream team
Yeah, the dream team
Like the 92 dream team
Yeah, the dream team
Together, we'll shine way too bright
I see you squint those eyes
Back in school I should've tried
When life is failing, you're my cheat sheet
Yeah, you're my cheat sheet
Life is failing, you're my cheat sheet
Yeah, you're my cheat sheet

Don't wanna live forever
In this world of shit
World of shit, this world of shit
Don't wanna live forever
If things stay like this
Stay like this, things stay like this
Things can't stay, can't stay like this

Together, we'll cause a stampede
Running through the streets

I can dance better in a seat
As you're making fun of me
Yeah, fun of me
As you're making fun of me
Yeah, fun of me

Don't wanna live forever
In this world of shit
World of shit, this world of shit
Don't wanna live forever
If things stay like this
Stay like this, things stay like this

Sneakers, worn out sole
Drag your feet, time to move
No diamonds, just coal
I got nothing to prove
All my jeans are black
All these streets are gray
Running wind to back
Let's just sail away

Don't wanna live forever
In this world of shit
World of shit, this world of shit
Don't wanna live forever
If things stay like this
Stay like this, things stay like this
